Entity Framework

PROFESSIONAL EXPERIENCE

Coder Foundry, Kernersville, NC

March 2015—June 2015

An immersive, 12-week accelerated learning program, focused on building web applications from scratch. Projects include:

Car Finder

- Created a fully functioning WebAPI web application from scratch
- Composed dynamic front end design using AngularJS, HTML 5 and Twitter Bootstrap
- Accessed NHTSA's car recalls database using provided WebAPI to show car recalls
- Included images using Edmond's WebAPI through JSONP calls
- Application dynamically formats itself based on available content/device screen size

Bug Tracker

- Created a fully functional MVC 5 web application from scratch
- Implemented code first database with user- and role-level security
- Created front end design using HTML5, Twitter Bootstrap and MVC model binding w/ Razor
- Used custom data models and partial views to enhance the user experience
- Included a JavaScript tour designed to acclimate the user to the application

Personal Website

- Created a personal website using MVC 5 and JavaScript
- Included secure log-in and blog web interface with user comments
- Presents programming exercises and code snippets in Javascript and C#

MetLife Premier Client Group, Greensboro, North Carolina
